# INTRODUCING OUR NEW Campfire Stone

Your next staycation couldn't be easier. We're excited to introduce one of the simplest, least expensive ways to create your very own great looking fire pit – **Campfire Stone**. It is much cheaper than a camper van and requires about as much labour as pitching a tent. Whether you have a metal surround, or choose to purchase **Barbeque Block**, we think you'll agree that this is one of the best looking, easy to assemble fire pits out there. Grab the kids, call your neighbours, bring your marshmallows and weenies – summer and fall nights just got a whole lot better at your home.

## Campfire Stone

Campfire Stone works on its own, but works and looks great if you surround your logs using our **Barbeque Block**. It couldn't be easier – simply place seven campfire blocks on top of Campfire Stone and you're all set. A 24" grill fits nicely on top and you're off and cooking!

5 x 7.5 x 14 in  
52 lbs. ea.  
7 pieces needed for campfire pit.

Natural Grey

For a great seating area, use Campfire Stone with the following patio stones and laying patterns: Bella, Covington, Bristol, Handy Paver, Highthorn, Holland Paver, Builder Slab, DiamondCast, Plank Slab, Terra Stone, and Terra Square
