# Paving Stones

Complete the look of your home with paving stones from TRIPLE H Concrete Products Ltd. Whether you're looking for an old world cobblestone feel or a more modern linear look, we've got many paving stone options. Because TRIPLE H offers a wide variety of sizes, shapes, and colours you have the flexibility to create a variety of patterns and borders from a great selection.

# Covington

Three great colours, four sizes and a variety of laying patterns make **Covington** pavers one of our most versatile options. Use all four sizes to create an old world cobblestone street pattern, use the square pavers to form a diamond pattern with the rectangular pavers making an elegant border, or try one of the suggested laying patterns. No matter which design you choose Covington pavers are sure to bring charm to your driveway or patio.

## Benches

16 x 38 in

3 benches per pallet

200 lbs each

600 lbs per pallet

One of the simplest, least expensive ways to create your very own great looking fire pit – **Campfire Stone**. Whether you have a surround or not! We think you'll agree that this is one of the best looking, easy to assemble fire pits out there.

## Campfire Stone

Only four pieces are needed to make this great fire pit surround. Use them in conjunction with Triple H pavers to make a seating area, surround it with peastone, or for the simplest solution – set them on your grass. A campfire pit that is quick, easy and inexpensive.

23.6 x 23.6 x 1.6 in  
52 lbs. ea.

4 pieces needed for  
campfire pit.

Ash Grey

Fire safety, do not use accelerants, and an appropriate size fire will guarantee the longevity of your Campfire Stones.

## Steps

### Ready Step Extension

42 in wide with  
7.5 in rise

7.5 in rise  
6 in wide  
14 in long

Pewter

### Ready Steps

More economical than cut stone – easy to use, with a consistent rise – the Ready Step is versatile and can be installed in many different landscape plans.

Pewter

### Roman Step

The rounded front of this step gives it a unique appeal.

48 in wide with a curved  
front and 6 in rise

### Wiar-ton Step

Pewter

6 1/4 in rise  
49 in wide  
391 lbs each  
6 pieces per skid

### Wiar-ton Step Extension

Rise is 6.5 in  
Length is 13.5 in  
Width is 5 in  
Weight is 16.2 kg

6.5 in rise  
5 in wide  
13.5 in long  
35.7 lbs.

## Garden Walls

### Mini Armour Stone

Add dimension to your garden. Mini Armour Stone provides a bold boundary for your garden.

4 varying sizes, all  
approximately 12 in high  
145 lbs to 170 lbs each  
8 pieces per pallet

**WEDGEROCK**

Approximately 11.5 pieces are needed for every 10 lineal feet of wall. 17 pcs will make a circle with a diameter of approximately 33 inches.

Pewter

12 x 7 x 9 x 4 in high  
3 pieces /face sq. foot  
80 pieces per pallet  
1,760 lbs per pallet

**WEDGEROCK  
Cornerstone**

**Sold separately** to make easy inside and outside corners without complicated cuts.

**small**

**large**

small 8 x 8 x 7 x 4 in high  
large 13 x 12.5 x 7 x 4 in high  
40 pieces per pallet  
(20 small and 20 large)  
1,190 lbs per pallet

## Kendal Stone

If you're looking for something smaller than Mini Armour Stone, but still want the rough rock look, then look no further than Kendal Stone.

Various sizing:  
14 - 17 in long  
9 - 11 in long  
6.5 in height  
60/75 lbs each  
27 pieces per pallet  
1900 lbs per pallet

Buff

## Maplewood Stepping Stone

Approximately 14 in diameter  
54 pieces per pallet  
20 lbs each  
1070 lbs per pallet

---

## Whimsical Stepping Stones

### Garden Leaf

19 lbs each  
40 pieces per pallet  
760 lbs per pallet

### Turtle Slab

13 lbs each  
40 pieces per pallet  
520 lbs per pallet

### Roman Circle

19 lbs each  
40 pieces per pallet  
760 lbs per pallet

### BIG FEET (left and right)

15 lbs each  
960 lbs per pallet  
32 left and  
32 right per pallet

### Fossil

19 lbs each  
40 pieces per pallet  
542 lbs per pallet

Details found on Fossil

Whimsical Stepping Stones are also available as a mixed pallet called Whimsical Garden Stone Pak.

# Inukshuk

## Large

24.5 in high  
89 lbs each  
Assorted colours

Assorted colours

## Deck Pier

For use with 4" x 4"s,  
and stringers

11.5 x 11.5 x 7.5 in  
52 lbs each  
48 pieces per skid

## FAQ and Answers!

### 1. **How do I install my pavers or slabs?**

Follow the basic instructions at the back of this catalogue.

### 2. **What is the most important part of my installation process?**

As always, the most important part of most projects is preparation, in this case having a good, well draining base.

### 3. **Can I use a tamper on my patio slabs?**

No, you cannot use a tamper on a product that is less than 6 cm thick.

### 4. **What is the purpose of the glue on my pavers when I receive them?**

The glue prevents the surface of the pavers from getting rub marks. It also provides a space between slabs to reduce efflorescence and water stains.

### 5. **Does the glue come off?**

Yes, it will in most instances come off quite easily, but sometimes you may need a putty knife to make it easier.

### 6. **Does the dark spot from the glue disappear?**

Yes, the dark spot will disappear in the sun and rain

### 7. **Efflorescence. What is it?**

Efflorescence is a whitish powder-like deposit that sometimes appears on concrete.

#### **How do I remove it?**

Efflorescence will usually wash and wear off over time. This is what **TRIPLE H** recommends.

#### **What if I don't want to wait. Is there another option?**

Yes. You could speed up the process by using a mild solution of muratic acid and water, 10-20 parts water to 1 part acid is a good starting point. Be sure to follow the manufacturers instructions because acid can be harmful!

#### **Where do I start the treatment?**

Try it out on a small unnoticeable area first to ensure the results are acceptable. Be sure to keep track of how long the acid is on the concrete! The length of time the acid is in contact with the concrete can effect the result. Also be sure to have a rinse hose at the ready.

#### **How often does this need to be done?**

Most cases of efflorescence occurs while the product is packaged and won't occur again once the product has been installed.

### **Is there a warranty for efflorescence?**

No. Efflorescence is not a warranty claim because it is a naturally occurring phenomenon that will wear off over time, or that can be removed.

### **Is there online help available?**

Yes. Try YouTube for “efflorescence removal” and “sealer application techniques”.

### **8. Will the colour last as long as other products that have the colour completely through the paver?**

Yes!

### **9. Why is there only a colour layer?**

Having a layer of colour is more efficient and uses less resources in the production process, thus lowering the carbon footprint.

### **10. Why do I not see that in other products in the market?**

**TRIPLE H** started in 1975 using a two layer process using machinery that was ahead of its time. We have always maintained a progressive and environmentally friendly attitude.

### **11. What is my warranty?**

All pavers and slabs have a warranty against product failure after installation with the products intended use. For example, products that are under 6 cm are not suitable for residential vehicular traffic.

### **12. What is polymeric sand and when is it used?**

It is a special sand which is used to fill the spaces between pavers. It is generally used on pavers that have oversized gaps between them.

### **13. Do I need to use a sealer on my slabs or pavers?**

It is not necessary to use a sealer on your slabs or pavers; however, it is recommended for wetcast products where salt is going to be used.

### **14. What sealer should I use?**

Use a quality sealer that is formulated for concrete pavers or slabs. Apply the sealer following the manufacturer's directions exactly.

### **15. Why should I sweep in jointing sand after the installation is complete?**

Jointing sand (any fine sand i.e., playsand) will bond your laying pattern and help prevent weeds from growing in the joints.

### **16. Where can I find a quality installer?**

Always check a contractor's references to determine if he or she is right for your project.

## Prepare to do it right!

The best driveways and patios start with Triple H Paving stones, but it's important to install your pavers properly. **When laying your paving stones always take the time to create the proper base.**

### 1. Excavation

When excavating for your project consider these two things:

**SOIL TYPE:** Clay soil requires that you dig deeper before applying your base material.

**HEAVY LOADS:** Driveways hold heavy loads and therefore require deeper excavation.

### 2. Base Layer

Consider load and drainage. Your base material must be strong enough to handle the load of its intended use, it must allow water to drain from the surface. Compact your base in layers and ensure that it extends at least 6 inches beyond the edge of your driveway or patio.

### 3. Bedding Sand

This layer is also important to allow water to drain from the surface. Smooth it out and ensure that it is deep enough so that you can lay the pavers perfectly! (We don't recommend limestone screening because it doesn't allow for proper drainage.)

### 4. Joint Material

To keep weeds out and to keep pavers in place choose an appropriate joint material. There are many types of joint material. We have designed the Highthorn paver to work well and look great with polymeric sand. If you choose polymeric sand be sure to follow the directions provided on the package closely as some polymeri can stain pavers.

## Patio stone area specifications

<p><b>30 x 15 cm</b> <b>(approx. 11.8 x 5.9 in)</b> covers .48 sq ft.</p> <p><b>Calculate area:</b> length x width divided by .48 = number of slabs required.</p>	<p><b>30 x 30 cm</b> <b>(approx. 11.8 x 11.8 in)</b> covers .96 sq ft.</p> <p><b>Calculate area:</b> length x width divided by .96 = number of slabs required.</p>

## **TRIPLE H Concrete Products Ltd.**

### **Paving and Patio Warranty**

Our products have a lifetime warranty to the original purchaser of the products for residential applications. This assurance of product quality is applicable where products have been correctly installed to meet the manufacturer's specifications. Colour variances and the appearance of efflorescence does not constitute a warranty claim. Any defective products will be replaced, however replacement labour and transportation costs are not included in this warranty. All warranty claims must be made prior to the removal or disposal of the defective product, approvals must be in writing. This warranty is not transferable. Proof of purchase is required.

# What sets us apart?

- Modern processes and equipment
- Excellent safety record – highest safety standards on equipment.
- Environmentally responsible production practices. We recycle wash water used in our exposed aggregate pavers, which makes a higher quality patio slab that uses less raw materials.
- We are less than 10km from our aggregate source. Our products are produced with a surface colour layer which enables us to use less pigment and lowers our carbon footprint.
- By manufacturing patio stones to the thickness required allows us to make a lighter stone, which reduces the amount of fuel used for transport.
- Our modern equipment requires less hydro.
- Our new one step tumbling stones line is not only energy efficient but also eliminates waste. Another plus for the environment.
- 95% of our products are shipped without plastic wrap. We only use plastic wrap on those products that require it for safe transport.
- We stake our reputation on the quality of our products and service. We're a family run business working hands-on every day.

A family run business since 1975.

We stake our reputation on the quality of our products and service. We're a family run business working hands-on every day.
